DOCUMENT RESUME

ED 419 702 SE 061 432

AUTHOR	Sarquis, Mickey, Ed.
TITLE	Bringing Industry-Based Science into the Classroom. PACT Ambassador Guide.
INSTITUTION	Miami Univ., Middletown, OH. Center for Chemical Education.
SPONS AGENCY	National Science Foundation, Arlington, VA.
ISBN	ISBN-1-883822-14-9
PUB DATE	1996-00-00
NOTE	82p.
CONTRACT	DUE-9454518
AVAILABLE FROM	Terrific Science Press, Miami University Middletown, 4200 E. University Blvd., Middletown, OH 45042 ($10.95).
PUB TYPE	Books (010) -- Guides - Classroom - Teacher (052)
EDRS PRICE	Document Not Available from EDRS.
DESCRIPTORS	*Chemistry; Educational Strategies; Hands on Science; High Schools; *Paraprofessional Personnel; *Partnerships in Education; *Science and Society; Science Curriculum; *Science Education; Two Year Colleges; Undergraduate Study

ABSTRACT

This "Ambassador" guide is a product of the Partners for the Advancement of Chemical Technology (PACT) Ambassador program that began in 1995. The purpose of this program is to bring industrial scientists and technicians into high school and two-year college classrooms to expose students and teachers to issues faced in the industrial workplace and laboratory. This guide is meant to provide direction to any industrial scientist or technician, college chemistry instructor, or high school teacher interested in starting such a program. It contains information about PACT, sample Ambassador programs, sample program materials, planning guidelines, a student evaluation, and descriptions of the Ambassador's role, the college facilitator's role, and the teacher's role.
